

Driving efficiency

Linx Printing Technologies

High efficiency is a common goal of all companies across the world, regardless of size or industry.

Linx coding and marking solutions have the tools to help you create a more efficient production line.

Production line efficiency

Availability

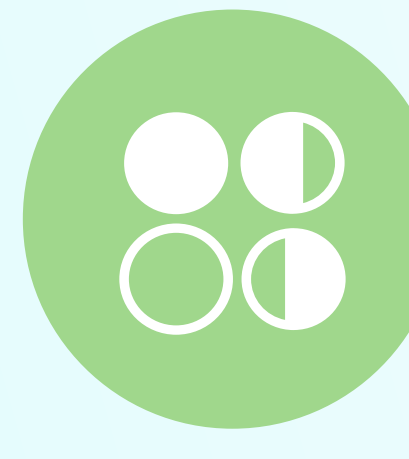

Throughput

Output quality

Self servicing

- Linx Continuous Ink Jet (CIJ) printers have service intervals of up to 2 years, servicing can be done by your team at a time that suits you

No consumables

- With a Linx Laser Coder there are no consumables to refill or monitor

Simple maintenance

- Linx Thermal Transfer Overprinters (TT) have quick and easy ribbon changes with a lightweight, simple ribbon cassette

PrinterNet proactively notifies

- Diagnose and monitor your printers and coders remotely through PrinterNet

1 Availability

Linx printers will keep production lines moving

2 Throughput

Ensuring productivity is maximised without costly implications

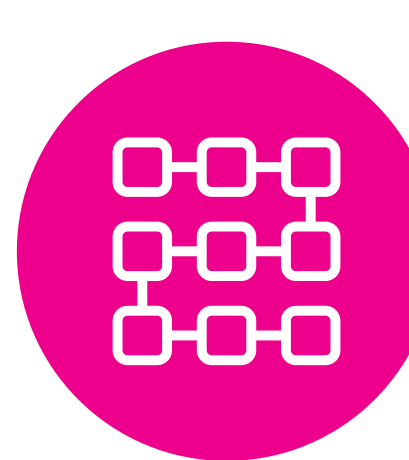

Linx CIJ printers have autoflush technology

- Industry-leading sealed printhead stays clean longer so you can keep printing
- Up to 100 start/stops between cleaning

Linx Laser coders permanently mark

- Permanently mark your products at speeds of up to 60,000 products per hour and above
- No consumables to reorder means no running out causing unplanned downtime

Linx PrinterNet connects your printers

- Integrated connected solution to monitor your print counts
- Calculate production end time for quicker more dynamic changeovers

Linx CIJ printers have simple touch-screen operation

- Easily create, change and save messages for controlled output each time
- On-screen prompts for right first time set up

Linx TT coders operate without compressed air

- Consistently great print quality every time without worrying about compressed air quality

Linx Laser coders provide improved print quality

- Vector based fonts improve code quality
- Quality maintained on high speed lines

Linx TIJ printers can print high resolution codes

- Data matrix and logo graphics marking consistently
- Simple message creation

3 Output quality

Maintaining high quality without compromising on costs or resources

Deliver your efficiency goals with Linx
